Sir:

REPLY TO NOTICE TO FILE CORRECTED APPLICATION PAPERS

This paper is responsive to the Notice to File Corrected Application Papers mailed January 10, 2011. If any fees are required in connection with this paper, the Commissioner is hereby authorized to charge such fees to deposit account 09-0528.

Please amend the application as follows:

Amendments to the Specification begin on page 2 of this paper.

Remarks begin on page 3 of this paper.

Amendments to the Specification:

Please replace lines 17, and 19, as shown on page 6 of the attached substitute specification – clean version - in the substitute specification. Please also add lines 20 and 21 as shown on page 6 of the attached clean version of the substitute specification. Applicants also attach a marked up version of the specification showing the changes made with this paper.

Attachments: Substitute Specification – Clean Version
 Substitute Specification – Marked up Version

Remarks

The Notice to File Corrected Application Papers mailed January 10, 2011 states that the following informalities require correction: the drawings as filed on January 5, 2007 include FIG. 8H, but the specification's *Brief Description of the Drawings* does not describe a drawing by that designation. FIG. 8H is, however, discussed in the specification. Accordingly, Applicants respond herewith by amending the specification by adding the following description of FIG. 8H: "Figure 8H shows a cross-section of a compliant edge in accordance with another embodiment of the present invention."

Applicants include a Substitute Specification – Clean Version and Substitute Specification – Marked up Version in support herewith. Applicants believe that this response complies with 37 CFR 1.121 and includes no new matter.

Conclusion

Applicants believe that the application now is in proper form, and is in condition for immediate issuance. If any issue remains unresolved, however, the Applicants' attorney welcomes a telephone conference to resolve any such matters.
